Comfortemp® coating
Gr. 36 – 48

Sports **safety half shoe, pure cowhide leather** with AFX-lining, steel toe and non-metallic anti-perforation insole "L-Protection"

Upper Material

Breathable cowhide leather, natural tanning exempt from harmful substances, easy care, comfortable on foot and best force properties

Lining

AFX(AirFlowteX)-lining for a natural air circulation and comfortable condition in the shoe, builds an air layer between foot and upper material and provides maximum comfort due to a free air-circulation

Insole

Anti-perforation protection and at the same time insole, "L-Protection": anti-perforation midsole with different layers of High-Tenacity-fibres in combination with ceramic particles. Flexible, breathable, metal free, good humidity absorption, antistatic

Sole

«Natura Walk», PUR-sole with TPU inserts for anatomic ankle support and heel cushioning for maximum walking comfort, ergonomic foot shape, shock absorbent, oil- and fuel-resistant, anti-slid, heat resistant up to 140°C
